

THE FANTASY GAME

Fantasy Football is great fun and tests your knowledge of the game, the players and how they are performing. The rules are very simple:

1) Select a team: below are the names of the positions. Select players from any of the county teams to fill these positions. You can choose either male or female or both.

Left corner forward	Full forward
Right corner forward	Left half forward
Centre half forward	Right half forward
Right midfield	Left midfield
Left half back	Centre half back
Right half back	Left full back
Centre full back	Right full back
Goalkeeper	Sub #1
Sub #2	Sub #3

2) Create your Team Sheet: after you select your players think of a name for your team and choose your team colours. Write the name of your team on the top of a page in your copybook. List all your players beneath your team name. Leave plenty of space beside the player's names to write in their scores. This is your Team Sheet!

3) Calculate your team's score: after the weekend check how your players did in their games. You can do this by reading a newspaper or watching RTÉ sport or logging on to www.rte.ie/sport

- Add every point/goal that any of your players scored to your Fantasy Team score.
- If one of your players was substituted you can use one of your Fantasy subs and do the same.
- Deduct one point per player if one of your players was booked, and two points per player if any were sent off.
- When you have finished add all the player's scores to get your final score.

4) Find out the scores of the rest of your classmates: the team with the highest score wins!
