

**FÁILTE ISTEACH I**

Next month your local G.A.A. club is hosting a match between this year's All Stars team and a County Select team as a fund raising event for a local charity.

Your class has been asked to help produce the information pack that will be sent to the visiting players.

Your specific task is to produce a little local map showing where the ground is and a set of directions explaining how to reach it. You will have to think of all the different ways to reach your ground, as not everyone will approach it from the same direction

**(Hint: not everyone will travel by road ... consider using landmarks in your explanation as well)**

You can use the boxes below to draw your map and list your directions.

**OUR GROUND**

**HOW TO REACH OUR  
GROUND**
